WHY CHOOSE INNOVA LEARNING

Innova Learning takes a partnership approach in delivering learning services to our clients. This starts by defining the strategy for the training interventions based on management objectives, the target audience, and the subject matter. Once the strategy is defined, Innova applies the necessary instructional design elements to the artistic vision, content structure, and style to capture the learner's attention and convey your organization's unique culture and values.

Our approach ensures that active knowledge transfer happens between course material and the learner. And, isn't this the reason why we do this - to impart knowledge?

As a full-service corporate education provider, we create courses ranging from quick and inexpensive customization of standard materials to rich and engaging visual elements. Our courses include 2D and 3D visual art, video, animations, virtual reality (with and without goggles), and other immersive techniques. We offer courses that are hosted by Innova Learning to provide small companies the same learning experience enjoyed by large multi-national firms. Offerings include multiple topics in the areas of:

- COMPLIANCE/REGULATORY
- ANTI-MONEY LAUNDERING
- SEXUAL HARASSMENT
- DIVERSITY & INCLUSION
- SAFETY
- EMPLOYEE ORIENTATION
- WORKPLACE VIOLENCE
- SALES TRAINING

Corporations of all sizes have the requirement and duty to educate both its employees and stakeholders. A robust corporate education program is a key part of successful companies.

Innova addresses a company's education needs from legal and cultural requirements to making their sales force more effective at their jobs, and everything in between. Simple push and pull capabilities enable any organization to develop and deliver information, track user learning progress, and record

InnovaHost delivers the best in eLearning and talent management capabilities. Our user-friendly cloud solution enables your organization to offer personalized learning portals for employees based on pre-defined attributes. InnovaHost tracks, notifies, and provides learning paths from individual to department. For the more discerning organization, InnovaHost also offers complete recruiting and performance management all through a single interface.

Creating and sustaining an engaged workforce that enables all a firm's employees to utilize their best talents requires a workforce that has been provided with the necessary tools to be successful. Innova provides companies the capability to educate its workforce on any topic with learning that is engaging and promotes learning.

Training can take the form of online learning, coaching, executive briefings,

Our clients are recognized leaders in their respective industries: financial services, media, and large multinational conglomerates to name but a few. Innova Learning provides you the ability to communicate compliance policies more effectively and achieve real behavioral change in your firm.

ABOUT INNOVA LEARNING

Innova Learning is an established corporate education provider specializing in high level online courses created to engage employees in their learning requirements. Innova uses state-of-the art creative processes to produce animated learning that is not boring and dull while providing necessary training on topics ranging from regulatory/compliance to safety to diversity/harassment to company imaging to virtually any topic that a firm needs for their employees. Innova's focus is on firms who have as their goal assuring their employees are competently, and competently trained. Corporations seeking to execute learning programs for their employees have two options - use a generic template or create custom content tailored to their goals. Our focus is to ensure that leaders and employees of our client firm are fully educated on the rules and regulations of their industry as well as topics germane to all companies, such as sexual harassment, safety, and workplace violence.

Innova Learning is headquartered in New York City and has offices in Texas.
